Are you getting full value for your spent Auto-Cats?

Platinum Recoveries Ltd is the UK's largest exclusive auto cat recycler, specialising exclusively in recycling auto cats. With our own on site assay laboratory, we guarantee our clients the best overall value based on the PGM content of the auto-cat, regardless of the quantity of auto-cats traded.

Operating nationwide, we offer the very best in service levels including on site gradings, flexible payment arrangements based on the very latest market prices. PRL is proud of its eco-efficient and total quality approach to auto cat recycling. Fully licensed by the Environmental Agency, our clients can be sure that all auto-cats purchased by PRL are recycled in our Swindon premises with a zero land fill policy that will meet ISO 140001 requirements.

We are even more proud of our business model that is based on openness and transparency towards our trading partners, delivering the very best value for used auto cats.

As a specialist auto cat recycler, we understand our job, and know how to extract the precious metals from auto-cats to deliver best value to you. Try PRL today, ring our sales line 01793 828283 and put PRL to the test when disposing of your spent auto-cats.
